

Need a little “archery practice”? Want to make sure that your annual Federal SPED child count is “On Target”? Then this workshop/webinar is for you! Come and see how ESS Data Management can help you achieve a SPED census bull’s eye. Although a successful bull’s eye may require many arrows, this workshop/webinar will help you to stay “On Target”!

Please note that this is a repeat of the “On Target” session that was offered at the 2011 Directors Institute.
